

N-trig at a Glance

N-trig designs and delivers the most complete pen and multi-touch solution for the new generation of touch-enabled personal computing devices that are defining the standard in today's PC based ecosystem. DuoSense®, N-trig's combined solution for integrated pen and true multi-touch functionality, is a significant part of the ongoing advance toward mainstream adoption of pen and multi-touch technology as a standard in the market.

N-trig collaborates and cooperates with all players in the PC based ecosystem to enable a more personal and seamlessly interactive user experience, that more closely answers the demands of today's on-the-move lifestyle.

We call it Hands-on computing®.

N-trig at a Glance

Company

- A privately-held global enterprise, founded 1999
